

# Elastar®

## IMPROVING PERFORMANCE

Jacquard Textile, together with our design partners in Italy, are continually dedicating time and energy to research and develop a range of new characteristics. These help to add significant value to our products and offer reassurance to our customers that the fabrics really can perform.

### Elastar®

The top end of the mattress market has been characterised in the last few years by an increasing use of washable, elasticated fabrics. In line with these demands, Stellini Textile Group has developed an alternative to knitted fabric – the result is ELASTAR®

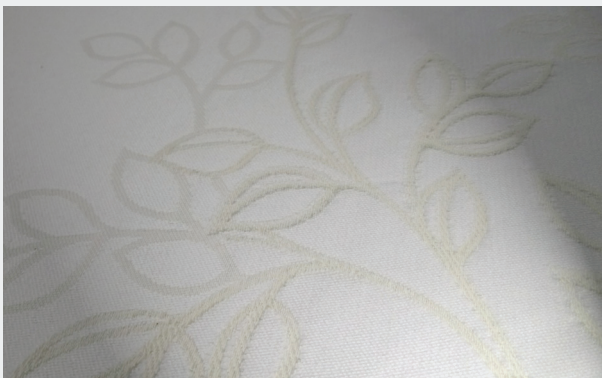

ELASTAR® is a collection of fabrics in different constructions and weights based on the use of yarns made of cotton, polyester and nylon. The fabrics are available in a wide range of designs and colours in variable widths from 220cm to 230cm.

### How it works

- High-elastic mattress ticking is the latest development among woven fabrics.
- Ticking offers excellent bed form adaptation and therefore enables perfect fit to the solid form.
- High-elastic ticking will fit to your bed form 100% over and over again.
- High-elastic ticking assures also excellent pilling test results which approve fabrics excellent appearance after using it for longer periods.
- It's three dimensional design optic offers attractive appearance for your end product.

### Benefits

- Beautifully soft
- Controlled elasticity
- Durable
- Unique 3D design
