

GOTS Certified

NATURAL LIVING

Nowadays there is more and more talk about the importance of nature and the environment. We feel a strong desire to surround ourselves with natural products and live in harmony with the world around us. In response we have a complete collection of fabrics with natural yarns provided by Mother Nature.

Global Organic Textile Standard

The Global Organic Textile Standard (GOTS) was developed through collaboration by leading standard setters with the aim of defining requirements that are recognised world-wide and that ensure the organic status of textiles from harvesting of the raw materials through environmentally and socially responsible manufacturing all the way to labelling in order to provide credible assurance to the consumer.

How it works

- Organically grown cotton is processed without the use of chemical fibres, solvents and toxic dyes that are typical of most modern fabrics. We often think of all cotton as 'natural', yet globally, conventional cotton uses 25% of all insecticides and 10% of all pesticides. Our GOTS fabrics are 100% Organic Cotton.
- GOTS accreditation checks all aspects of the manufacturing process for environmentally and socially responsible practices.

Benefits

- 100% natural
- Environmentally friendly
- Safe, relaxing and comfortable sleep environment
- Healthy
